TV-BROADCASTING COMPETITION AND ADVERTISING

Jean J. GABSZEWICZ¹, Didier LAUSSEL² and Nathalie SONNAC³

February 2000

Abstract

We analyse the rivalry between two TV-channels competing both on the market for audience and the market for advertising. We identify the nature of TV-programs emerging from this competition, and the quantity of advertising that TV-viewers will have to attend at equilibrium. Finally, we examine how a government's regulation of this quantity will affect programs' selection by the channels.
